PRELIMINARY AMENDMENT

Sir:

Please add the following new claims in the above-  
identified patent application:

--~~49~~ 5. A locating and monitoring system installable on  
the premises of a facility, said system including:

a plurality of transmitter means adapted for movement  
about said facility with a person, with an animal or with  
equipment to allow identification of such transmitter means at  
any of diverse sites in the facility, each of said transmitter  
means including means for transmitting infrared pulse bursts,  
each of said infrared pulse bursts defining a unique binary  
identification code comprising a plurality of binary bits of  
sufficient number that each of said transmitter means in said  
facility transmits a different binary identification code, means  
responsive to an algorithm for controlling said means for  
transmitting said infrared pulse bursts during a predetermined
